Leveraging AI for Effective Decision-
Making

Angelo Kwak

AI Engineer at Blue Mountain

State College, Pennsylvania, United States

Summary

I'm passionate about turning data into meaningful insights and harnessing the power of AI to make a difference. My journey in Data Science and AI is all about curiosity, continuous learning, and finding creative solutions to everyday challenges using both data and advanced AI techniques. I love diving into datasets, uncovering hidden patterns, and leveraging smart algorithms to solve problems and bring ideas to life. Whether it's refining models or brainstorming new AI-driven approaches, I'm always eager to grow and help drive positive change.
